Hazel Haugh (above), Superintendent's Clerk, Rolling Mill Dept., and her daughter, Eloise, age 14 (left). Read story at left.

## Introducing . . . Hazel Haugh

Here's a "personality sketch" about that cheerful person you meet when you go into the office of J. M. Mitchell, Superintendent of Rolling Mill Dept. She's Hazel Haugh, who always has a smile.

Hazel started working at Youngstown in 1924 and then . . . (a pretty gal can't go around single all her life). Hazel got married and was away from Youngstown for quite some time.

She returned in 1933 and at present is secretary to Superintendent Mitchell.

The apple of Hazel's eye is her 14-year old daughter, Eloise, a pretty young lady, attending George Rogers Clark High School.

Hazel likes to bowl, go horse-back riding, thoroughly enjoys flying in an airplane, and as she puts it, "Boy! I'm really a coffee fiend. I really appreciate a good cup of coffee."

People like Hazel, and that's so because Hazel likes people. She is a good mixer and always has a smile. After you get through telling Hazel your "woes," she makes you feel they aren't quite as bad as what you thought they were.

Hazel was born in Robertsdale and has been a resident in the Calumet region all her life.

**Bill Brabbs' Death Shocks Many Friends**

By Babs Hylek

William G. Brabbs, Machinist at Main Machine Shop, died from a heart attack Oct. 23.

Mr. Brabbs was born Sept. 3, 1891, in Chester, Pa., and resided in Marktown many years. He had been associated with the Company since 1920.

"Bill," as he was known to a host of friends, received First Aid Training in a U. S. Navy deep sea diving school in World War I. Along with his machinist work, he was doing an excellent job of instructing plant people in first aid training in conjunction with Safety Dept. program.

**Helped Direct Minstrels**

Bill was a suggestor, having received awards for suggestions put into operation. He was a blood donor, bought bonds regularly and assisted the late Harry Young in shaping and presenting Employee Minstrels.

He was Scoutmaster of Troop Four, Twin City Council member Executive Board of Scouts, medical chief and first aid instructor OCD, 8th Area and a Charter member of Illiana Post No. 388, The American Legion.

Brabbs was esteemed by his fellow-workers and was everlastingly doing something to help people in the plant and in community life. At the time he was stricken, he was engaged in promoting a Boy Scout activity . . . a man to be missed and remembered by many children, men and women.

**Leaves Wife, 5 Children**

"I'm sorry I invented the pocket!"

**I**F I HAD KNOWN that some Americans would be using pockets to hold all the extra money they're making these days I never would have invented them.

Pockets are good places to keep hands warm.

Pockets are good places to hold keys...and loose change for carfare and newspapers.

But p-ckets are no place for any kind of money except actual expense money these days.

The place—the *only* place—for money above living expenses is in War Bonds.

Bonds buy bullets for soldiers.

Bonds buy security for your old age.

Bonds buy education for your kids.

Bonds buy things you'll need later—that you can't buy now.

Bonds buy peace of mind—knowing that your money is in the fight.

Reach into the pocket I invented. Take out all that extra cash. Invest it in interest-bearing War Bonds.

You'll make me very happy if you do.

You'll be happy too.

## TO OUR EMPLOYEES AND THEIR FAMILIES:

This Christmas Season we feel deep sorrow because of the number of our young men who have been or are being killed, wounded or reported missing in actions that are winning for the world the freedom we all prize so dearly. If we at home will be considerate of the welfare of others in the many ways open to us, all of us, I am sure, will help to make this Christmas Season one of better cheer than otherwise would be possible.

I extend to each of you my sincere wishes for a Happy Holiday Season.

"The living standards of civilians have been very hard on them. I can readily understand this because of my own changes. It is too bad that you are limited to the use of your automobile. I know how it is to walk through miles of mud, rain, and snow, So I Understand.

"It is too bad your choice of foods is limited. I have experienced this except that there is no choice and often no food, So I Understand.

"It is too bad you have to wait in the rain for your bus or streetcar, and the schedules are so uncertain. I, too, have to wait in the rain 'if' there is transportation and my destination is also uncertain, So I Understand.

"It is too bad you are being paid so little for working so hard. I only get a fraction of your pay, So I Understand.

"Winning this war is hard on all of us. You work long hours and so do I, So I Understand.
